Reeve

will be received by the undersigned on the 4th day of May, 2022 from 9:00 a.m. to 4:00 p.m. at the Rural Municipality of Chesterfield No. 261 office, 205 Main Street, Eatonia, Sask.

Dated this 18th day of April, 2022.

Tosha Kozicki,
Returning Officer

The town has hired a company to clean the streets before the Centennial celebration. Virtue Construction & Street Sweepers is scheduled to come the week of June 13 – 17, 2022 with 2 commercial grade street sweepers to clean all the streets in town. They are estimating that it will take approximately a day to do the town. Closer to the time they will confirm the exact day they will be here.

Therefore, we need resident's cooperation to ensure this is a successful sweep. We ask residents to not park anything on the streets when they are here working. Offer to share driveways with your neighbours when possible. Clearing away the debris and leaves will freshen everything up in town.

Watch for posters, social media and newsletter with the exact date of when they will be here.

Thanking everyone in advance for your Co-operation.

Construction Codes Advisory

Promoting construction of safe, healthy, habitable buildings

Carbon Monoxide and Smoke Alarms – Protecting People in Their Homes

Information at a Glance

Effective July 1, 2022, all *buildings* in Saskatchewan with sleeping rooms are required to provide early warning protection against the effects of carbon monoxide (CO) poisoning, smoke and fire.

The installation of CO and smoke alarms is the most effective way of accomplishing this requirement.

When a *building* with sleeping rooms contains a fuel-burning *appliance*, or an attached vehicle parking garage, CO alarms must be installed:

- inside each sleeping room; **OR**
- outside each sleeping room within 5 meters (16 feet) of each sleeping room door.

When a *building* contains sleeping rooms, smoke alarms must be installed:

- on each floor level of a *building*, including the level with sleeping rooms, with the smoke alarm located between the sleeping rooms and the remainder of the floor; **AND**
- inside each sleeping room.

An example house, that meets the new requirements for CO alarms and smoke alarms, is shown below.

Compliance with *The Construction Codes Act*, Regulations and the National Building Code of Canada 2015 (NBC 2015) is addressed in this advisory. Words in italic, other than Act and Regulation titles are defined in the NBC 2015.
